## SUMMARY

Experienced Frontend Developer (2+ years) leveraging React and Next.js to deliver robust, user-centric web applications. Proven ability to implement consistent, efficient UI through modern design practices.

## EXPERIENCE

**Frontend Developer**                                                    Feb '23 — Apr '25

TGH Tech                                                                  Kochi, Kerala, India

- Contributed to the **complete frontend development** of the application, working both independently and in close coordination with other developers.
- **Developed a dynamic PowerPoint (PPT) generation feature in React** for client-facing presentations, **automating content assembly from application data** and **ensuring consistent on-brand visual design.**
- **Implemented role-based access control (RBAC)** by developing a **reusable route wrapper component** that restricts user access to specific pages based on their roles, displaying a fallback for unauthorized attempts.
- **Implemented a robust design system** using **Shadcn UI and Tailwind CSS**, **significantly improving development efficiency and ensuring visual consistency** across the application.
- **Developed a dynamic availability booking feature**, enabling users to select multiple time intervals across a weekly schedule, managing complex form state and validation with **React Hook Form** and **Zod**.

## PROJECTS & CONTRIBUTIONS

- **Receipto:** Receipt Upload & Expense Tracking System. Demo & Repo.
- **Meeval:** Patient management dashboard for cancer care.
- **Fintalent:** Job recruitment platform connecting candidates with recruiters for streamlined hiring.
- **Teledesk:** Task management app, accessible independently or launched via a Telegram bot.
- **TGH TECH Website:** Static site with integrated CMS and smooth animations.

## SKILLS

**Technical skills**    React.js, Next.js, Typescript, Javascript, TailwindCSS, Shadcn, Redux, Tanstack Query, REST, SSR, Node.js, Express.js, Vitest, Docker, Git, Postman, Firebase

## EDUCATION

**Bachelor in Computer Science**, College of Applied Science, Nattika          Jun '19 — Jun '22
